**Table S2:** Characteristics of Included Studies

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symp toms	Lung function test
Abbasi [1]; 2012; Pakistan	ATS-DLD-78-A	Cross-sectional house-to-house survey	General population	> 18	200 (Not available)	●			●	●
Abu Sham'a [2]; 2010; Palestine	ATS-DLD-78-A	Cross-sectional worksite survey	Farmers	22-77	250 (Not available)	●			●	
Aggarwal [3] 2006; India	IUATLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 15	73,605;100	●				
Agarwal [4]; 2012; India	NFHS-3	Secondary data analysis	General population	20-49	156,316;98	●				

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
Agrawal [5]; 2013; India	NFHS-3	Secondary data analysis	General population	20-49	156,316;98	●				
Agrawal [6]; 2014; India	NFHS-3	Secondary data analysis	General population	15-54 (males), 15-49 (female)	117,719 (Not available)	●				
Ahasan [7]; 2000; Bangladesh	Self-designed	Cross-sectional worksite survey	Textile mill workers	18-52	210 (Not available)	●			●	
Akkurt [8]; 2003; Turkey	ECRHS	Cross-sectional survey	General population	> 20	5,448;93.2	●			●	
Akpinar-Elci [9], 2002; Turkey	ATS	Cross-sectional worksite survey	Hairdressers	Mean age: 25.2 ± 10.7	184;89.3	●				
Akpinar-Elci [10]; 2004; Turkey	ATS-DLD-78-A	Cross-sectional worksite survey	Florists	12-66	128;80.5	●			●	
Akpinar-Elci [11]; 2015; Grenada	ATS	Cross-sectional interviewer-assisted house-to-house survey	General population	> 18	225;80.1	●			●	
Akpinar-Elci [12]; 2017; Grenada	ATSDR, Occupational and Environmental Exposure History Questionnaire, ATS, Respiratory Disease Questionnaire, NHANES III, Respiratory Health and	Cross-sectional worksite survey	Nutmeg production workers	48.3 ± 8.1	92 (Not available)	●			●	

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symp toms	Lung function test
	Disease Questionnaire									
Alam [13]; 2015; Bangladesh	Self-designed	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	3,744;99.6		●			
Amaral [14]; 2018; 29 Countries	BOLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	18,554 (Not available)					●
Amiri [15]; 2014; Iran	ECRHS	Cross-sectional interviewer-assisted house-to-house survey	General population	NA	857 (Not available)	●				
Andreeva [16]; 2015; Russia	ATS-DLD-78-A and IPCRG Questionnaire	Prospective cohort study	General population	35-70	3,133 (Not available)	●	●			
Andreeva [17]; 2016; Russia	ATS-DLD-78-A	Cross-sectional healthcare facility survey	General population	35-70	2,974 (Not available)		●			
Arias [18]; 2018; Argentina	ECRHS	Cross-sectional computer-assisted telephone survey	General population	20-44	1,521; 51.4	●				
Arora [19];2018; India	Not reported	Cross-sectional interviewer-assisted house-to-house survey	Women	18-59	299 (Not available)					●
Arslan [20]; 2013; Turkey	BOLD	Cross-sectional healthcare facility survey	General population	> 40	946 (Not available)		●			
Athavale [21]; 2017; India	IUATLD	Cross-sectional self-administered house-to-house survey	General population	<20 - 80	1,006 (Not available)	●				
Baatjies [22]; 2009; South Africa	ECRHS	Cross-sectional worksite survey	Bakery Workers	Mean age:32	517 (Not available)	●			●	●

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
Badway [23]; 2016; Egypt	CAT	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	2,400;96		●			
Balcan [24]; 2018; Turkey	Self-designed	Cross-sectional healthcare facility survey	clinic/hospital attendees / staff	> 18	424 (Not available)					●
Banda [25]; 2017; Malawi	S1 questionnaire	Cross-sectional interviewer-assisted house-to-house survey	General population	15-99	15,795;95.1				●	
Barbieri [26]; 2006; Brazil	ECRHS, IPAQ	Prospective cohort study	General population	23-25	2,063 (Not available)	●				
Baris [27]; 2011; Turkey	ECRHS	Cross-sectional worksite survey	Teachers	Mean age: 38.9 ± 8.9	685 (Not available)		●			
Boskabady [28]; 2002; Iran	Self-designed	Cross-sectional interviewer-assisted house-to-house survey	General population	≥ 20	5,579 (Not available)	●				
Budhathoki [29]; 2016; Nepal	Self-designed	Cross-sectional worksite survey	Welders	≤ 49	300 (Not available)	●			●	
Buist [30]; 2008; China, Turkey, Austria, South Africa, Iceland, Germany, Poland, Norway, Canada, USA, Philippines, Australia	BOLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	9,425 (Not available)		●			
Caballero [31]; 2008; Colombia	Ferris Respiratory Symptoms and	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	5,539; Not available		●			

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
	Risk Factors Questionnaire									
Caban-Martinez [32]; 2012; Dominican Republic	CDC-Behavioral Risk Factor Surveillance System (BRFSS)	Cross-sectional self-administered community (health fair) survey	General population	18-79	117; 49	●				
Caldeira [33]; 2006; Brazil	Symptoms and Risk Factors Questionnaire	Prospective cohort study	Young adults	23-25	1,922; 93.1	●				
Cardoso [34]; 2012; Brazil	ISAAC	Cross-sectional interviewer-assisted house-to-house survey	General population	6-50	427; Not available	●				
Celedon [35]; 2000; China	ATS-DLD	Cross-sectional interviewer-assisted house-to-house survey	Family with known asthma members	No age limit (7,671 offspring; 5,324 parents)	12,995 subjects in 2,756 families; Not available	●	●			
Celik [36]; 1999; Turkey	ECRHS	Cross-sectional interviewer-assisted survey	General population	18-72	1,056; 81.2	●				●
Chan [37]; 2015; Malaysia	IPAQ and WHO STEPS	Cross-sectional interviewer-assisted house-to-house survey	General population	> 18	18,184; 99.7	●				
Chan-Yeung [38]; 2002; China	IUATLD	Cross-sectional interviewer-assisted house-to-house survey	General population	20-44	22,528; Not available	●				●
Chattopadhyay [39]; 2014; India	St. George's Questionnaire	Cross-sectional worksite survey	Coal-based sponge iron plant workers	Mean age: 35±8	258; 100					●

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
Chhabra [40]; 2001; India	ATS-DLD-78-A, BMRC and the National Heart, Lung and Blood Institute (NHLBI-USA)	Cross-sectional interviewer-assisted house-to-house survey	General population	> 18	4,171; Not available	●	●	●	●	
Chien [41]; 2002; Vietnam	ATS	Cross-sectional worksite survey	Refractory brick facility workers	24-49	158; Not available			●		
Ching [42]; 2014; Malaysia	Canadian case finding questionnaire	Cross-sectional healthcare facility survey	Smokers	> 40	416; Not available		●			●
Chkhaidze [43]; 2009; Georgia	Self-designed	Cross-sectional healthcare facility survey	clinic/hospital attendees / staffs	≥ 5	3,646; Not available	●		●		
Chowgule [44]; 1998; India	IUATLD	Cross-sectional interviewer-assisted house-to-house survey	General population	20-44	2,213;81	●			●	
Choy [45]; 2002; China	Self-designed	Cross-sectional interviewer-assisted house-to-house survey	Elderly	> 70	2,032;59.7	●			●	
Chuaychoo [46]; 2003; Thailand	Self-designed	Not available	General population	> 60	3,094;99.1		●			
Chuchalin [47]; 2014; Russia	GARD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 18	7,164; Not available	●	●	●	●	
Daldoul [48]; 2013; Tunisia	BOLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	717;88.8		●			

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
Davey [49]; 2005; Ethiopia	IUATLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 5	3,485 urban 4,164 rural ; 81 urban and 91 rural	●				
de Fátima Macaira [50], 2007; Brazil	ECRHS, ISAAC and MRC questionnaire	Cross-sectional worksite survey	Non-domestic cleaners	Mean age: 35(women), 30.7(men)	341; Not available	●	●			
de Oca [51], 2012; Brazil, Chile, Mexico, Uruguay, Venezuela	PLATINO, SF-12	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	5,571; Not available		●	●	●	
de Oca [52], 2017; Latin America	PLATINO	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	1,743; Not available	●	●			
de Sousa [53] 2011; Brazil	2008 Health Survey of the City of São Paulo (ISA-Capital 2008)	Cross-sectional interviewer-assisted house-to-house survey	General population	≥ 40	1,441; 77.5		●			
de Souza [54] , 2010; Brazil	Self-designed	Cross-sectional worksite survey	Charcoal production workers	Mean age: 46.5 ± 13.3	67; 100	●	●		●	
Dejsomritrutai [55]; 2006; Thailand	IUATLD	Cross-sectional healthcare facility survey	General population	20-44	3,454; 46.9	●				

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
Dejsomritrutai [56]; 2009; Thailand	Self-designed	Cross-sectional house-to-house survey	General population	20-44	268; Not available	●				
Denguezli [57]; 2016; Tunisia	BOLD	Cross-sectional interviewer-assisted house-to-house survey	Non-smokers	> 40	717;90		●			
Dennis [58]; 2012; Colombia	ISAAC	Cross-sectional self-administered survey	General population	Jan-59	5,978; Not available	●				
Desalu [59]; 2009; Nigeria	ECRHS	Cross-sectional interviewer-assisted house-to-house survey	General population	18-65	805;100	●				
Desalu [60]; 2011; Nigeria	ECSC	Cross-sectional interviewer-assisted house-to-house survey	General population	> 35	391;86.7				●	
Deschamps [61]; 1998; Senegal	ATS	Cross-sectional worksite survey	Workers Exposed to Isocyanates	Mean age: 39.25	96; Not available	●		●	●	
Deveci [62]; 2011; Turkey	BOLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 18	1,206;94.9		●			
Díaz [63]; 2007; Guatemala	ISAAC, IUATLD and MRC questionnaire	Cross-sectional interviewer-assisted house-to-house survey	Women	15-50	350; Not available				●	
Ding [64]; 2012; China	Self-designed	Cross-sectional interviewer-assisted house-to-house survey	General population	> 2	13,050; Not available	●				
Ding [65]; 2015; China	Self-designed	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	5,463; Not available		●			

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
Ding [66]; 2018; China	BOLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	5,637; 100		●			
Dong [67], 2013; China	ATS	Self-administered community survey	Women	23-49	30,780; 89	●		●		
Dutta [68]; 2015; India	IUATLD	Cross-sectional interviewer-assisted house-to-house survey	Women	> 40	1,650; Not available			●		
Echazarreta [69]; 2018; Argentina	CAT, mMRC questionnaire	Cross-sectional interviewer-assisted house-to-house survey	General population	≥ 40	4,019; 87		●			
Ehrlich [70]; 2004; South Africa	South African Demographic and Health Survey	Cross-sectional interviewer-assisted house-to-house survey	General population	≥ 15	13,722; Not available				●	
El Hasnaoui [71], 2012	Confronting COPD questionnaire, CAT	Cross-sectional telephone survey	General population	> 40	62,086; 74		●			
El Rhazi [72] , 2016; Morocco	BOLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	966; 96		●			
Erhabor [73]; 2006; Nigeria	IUATLD and MRC questionnaire	Cross-sectional self-administered survey	University students	15-35	903; 90	●			●	
Erhabor [74]; 2016; Nigeria	ECRHS	Cross-sectional self-administered university survey	University students and staff	> 15	Students:2,37 2 Staff:455; Students: 86.3 Staff: 32	●				

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
Fazlollahi [75]; 2018; Iran	ECRHS	Cross-sectional interviewer-assisted house-to-house survey	General population	20-44	24,344; Not available	●				
Fereidouni [76]; 2009; Iran	ECRHS	Community survey	General population	Mean age: 25	1,230; 88	●				
Franco-Marina [77]; 2014; Mexico	PLATINO	Cross-sectional interviewer-assisted house-to-house survey	General population	≥ 40	659; Not available		●			
Gathuru [78]; 2002; Nigeria	ATS	Cross-sectional worksite survey	Civil servants	30-69	410; Not available				●	●
Ghasemkhani [79]; 2006; Iran	modified MRC questionnaire	Cross-sectional worksite survey	Industrial workers	19-70	880; Not available				●	
Gizaw [80]; 2016; Ethiopia	MRC questionnaire	Cross-sectional worksite survey	Cement factory workers	18-60	404; 95				●	
Golshan [81]; 2002; Iran	Self-designed	Cross-sectional healthcare facility survey	General population	13-37	994; 88	●				
Golshan [82]; 2001; Iran	Self-designed	Cross-sectional healthcare facility survey	General population	> 35	4,636; 81		●		●	
Golshan [83]; 2002; Iran	Self-designed	Cross-sectional survey	General population	1-80	994; 88				●	
Golshan [84]; 2011; Iran	European Compendium of Respiratory Standard	Cross-sectional interviewer-assisted house-to-house survey	General population	≥ 40	1,308; 59		●			
Gonzalez-Garcia [85]; 2015; Colombia	ATS-DLD-78-A	Cross-sectional interviewer-assisted house-to-house survey	General population	40-93	5,539; Not available	●				

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symp toms	Lung function test
Gorgieva [86]; 2010; Kosovo	Self-designed	Cross-sectional interviewer-assisted house-to-house survey	General population	> 18	423; Not available		●			
Gourgoulianis [87]; 2000; Greece	Not reported	Cross-sectional self-administered house-to-house survey	General population	> 55	569; Not available				●	
Guddattu [88]; 2010; India	Not reported	Secondary data analysis	Women	15-49	124,39; Not available	●				
Gunen [89]; 2008; Turkey	BOLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 18	1,160; 93		●			
Gupta [90]; 2006; India	IUATLD	Cross-sectional house-to-house survey	General population	> 15	62,109; Not available	●				
Gupta [91]; 2016; India	IUATLD	Cross-sectional survey	General population	> 60	1,522; Not available	●	●			
Gupta [92]; 2017; India	Self-designed	Community survey	General population	Not available	73; Not available	●	●		●	
Hamatui [93], 2017; Namibia	Adapted questionnaire from another study	Cross-sectional self-administered house-to-house survey	General population	> 18	107; Not available	●	●		●	
Hamzaçebi [94]; 2006; Turkey	ECRHS	Cross-sectional healthcare facility survey	General population	15-80	1,916; 89	●			●	
Han [95]; 2018; Puerto Rico	Self-designed	Cross-sectional interviewer-assisted house-to-house survey	General population	18-64	3,049; 84	●	●			
Horner [96], 2017; pooled data from participating	BOLD, EPISCAN, PLATINO, and PREPOCOL questionnaire	Cross-sectional interviewer-assisted house-to-house survey	General population	Mean age: 56.1 ±11.3	30,874; Not available		●			

Author; year; country	Questionnaire	Study description	Population	Age (in years)	Number of participants (n); response rate (%)	Measured outcomes				
						Asthma	COPD	Other CRDs	Symptoms	Lung function test
countries (44 sites)										
Huang [97]; 2013; China	Self-designed	Prospective cohort survey	General population	Not available	49,383; 95		●			
Idolor [98]; 2011; Philippines	BOLD	Cross-sectional interviewer-assisted house-to-house survey	General population	> 40	991; Not available		●			
Ishtiaq [99]; 2014; Pakistan	Self-designed	Cross-sectional worksite survey	Coal Miners	Mean age: 30	400; Not available			●		
Jaganath [100]; 2015; Peru	Not reported	Cross-sectional interviewer-assisted house-to-house survey	General population	> 35	3601; 83		●			
Jeebhay [101]; 2008; South Africa	ECRHS	Cross-sectional worksite survey	Fish processing workers	Mean age: 36± 11	594; Not available	●				
Jie [102]; 2013; China	ECRHS	Cross-sectional self-administered house-to-house survey	General population	> 18	1,207; 95	●			●	
Jie [103]; 2016; China	Self-designed	Cross-sectional self-administered house-to-house survey	General population	> 18	610; Not available					●

Notes and Abbreviation

ACQ - Asthma Control Questionnaire  
ACT - Asthma Control Test  
ATS - American Thoracic Society  
ATS-DLD - American Thoracic Society Division of Lung Disease questionnaire  
ATSDR - Agency for Toxic Substances and Disease Registry  
BMRC - British Medical Research Council  
BOLD - Burden of Obstructive Lung Disease  
CAT - COPD Assessment Test  
CCQ - Clinical COPD Questionnaire  
CDC-BRFSS Centers for Disease Control and Prevention Behavioral Risk Factor Surveillance System  
CKB - China Kadoorie Biobank  
ECRHS - European Community Respiratory Health Survey  
ECSC - European Community for Coal and Steel  
EQ-5D - EuroQol 5 Dimension  
GA2LEN - Global Allergy and Asthma European Network  
GARD - Global Alliance against Chronic Respiratory Diseases  
INSEARCH- Indian study on epidemiology of asthma, respiratory symptoms and chronic bronchitis in adults  
IPAG - International Primary Care Airways Guidelines  
IPAQ - International Physical Activity Questionnaires  
ISAAC - International Study of Asthma and Allergies in Childhood  
IUALTD - International Union against Tuberculosis and Lung Disease (this was later revised and used in the ECRHS Study)  
MRC questionnaire - Medical Research Council Respiratory Questionnaire  
NHFS3 - National Family Health Survey 3  
PLATINO - Latin American Project for the Investigation of Lung Disease  
PUMA - used modified PLATINO  
SF-12 - 12-Item Short Form Health Survey  
USOC - United States Olympic Council  
WHS - World Health Survey
