<sup>a</sup>Country income level was based on the World Bank classification at the year of the survey in the respective countries. LIC=low income countries; LMIC=lower middle income countries; UMIC=upper middle income countries; HIC=high income countries.

<sup>b</sup>Estimates were weighted, sex- and age-adjusted.

<sup>c</sup>Were worried about something that they could not sleep at night most of the time or always in the past 12 months.

<sup>d</sup>Used any tobacco products on at least one day in the past 30 days.

<sup>e</sup>Were physically attacked at least one time in the past 12 months.

<sup>f</sup>Felt lonely most of the time or always in the past 12 months.

<sup>g</sup>Parents understood their problems and worries, or know what they were doing with their free time most of the time or always in the past 30 days.

<sup>h</sup>Most of the students in their school were kind and helpful most of the time or always in the past 30 days.

**Supplementary Table 2. Country-wise multivariate logistic regression results for adolescents aged 12-15 (N=109,408). GSHS, 2005-2015.**
